

# Fundamentals of Paediatric ECMO

Thursday 4 and Friday 5 June 2026

A two-day, expert-led course giving you the essential skills to spot when a child may need ECMO and how to navigate the referral pathway with confidence.

Experience real-life scenarios through clinical simulation, explore ethical challenges, and deepen your understanding of ECMO physiology, monitoring and complications.

Attend **in person** or **online** and learn alongside a multidisciplinary community.
